FREEHAND GUARD

Shields Eyes & Face

- ▶ 1-1/8" Clearance
- ▶ 1/4" Clear Polycarbonate
- ▶ Installs Quickly to Router Table Insert

MADE IN THE
USA

Scratch-Resistant

Freehand Guard will shield eyes and face from flying wood chips. Installs quickly to router table insert. Made of 1/4" x 4-1/4" clear scratch resistant polycarbonate.

MOUNTING INSTRUCTION:

1. Drill out existing hole in red ring to 5/16".
2. Press insert into hole from bottom using a mallet.
Note: Be very careful not to push in past flush.
3. Place stand off on top side of ring over brass insert.
4. Place polycarbonate guard over stand off and fasten tightly in place using mounting screw.

WARNING: Always follow the safety recommendations and guidelines provided by the manufacturer of your tools. When in doubt refer to your owner's manual.

WARNING: Always pay close attention to where your hands are in relation to bit.

WARNING: Guard may rotate on bolt and is not intended to protect hands.

WARNING: Do not raise bit into guard.
